Education

Bachelor of Computer Applications (BCA) August 2024 - June 2027
Graphic Era Hill University

Projects

AI Knowledge Base | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack knowledge management platform for **creating, organizing, searching, and retrieving structured information**.
- Designed and implemented **RESTful APIs** using Node.js and Express.js for managing knowledge-base resources.
- Built a modular **React.js frontend** with reusable components, dynamic data rendering, and responsive UI.
- Integrated MongoDB for structured data storage and implemented **CRUD operations** for knowledge-base content.
- Integrated frontend and backend through REST APIs for efficient **data exchange and application workflows**.
- Implemented request validation and error handling to improve application reliability and maintainability.

ShopPilot | React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a full-stack shop management platform for managing **products, inventory, sales, purchases, customers, suppliers, expenses**, and **reports**.
- Implemented a POS checkout system with **invoice generation, receipts, printing/PDF support, and UPI QR payment flow**.
- Developed inventory and stock movement functionality for tracking **stock increases, deductions, purchases, and sales**.
- Implemented JWT authentication with HTTP-only cookies, **bcrypt password hashing**, and **protected API routes**.
- Designed modular backend architecture using **controllers, models, routes, middleware,** and **services** with **MongoDB/Mongoose**.
- Built a responsive frontend using **React.js, Vite, Tailwind CSS, React Router, Axios, Zustand**, and **Recharts**.

Resume-ATS-Roadmap | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack ATS resume analysis platform for uploading and **analyzing PDF/DOCX resumes**.
- Implemented ATS scoring to evaluate **resume structure, keywords, skills,** and **job-role alignment.**
- Built a skill-gap analysis system to **identify missing skills** and provide personalized **career recommendations**.
- Developed a career roadmap feature that **generates structured learning paths** based on the user's resume and target role.
- Implemented JWT authentication, **protected API routes, resume analysis history**, and **MongoDB data management.**

Technical Skills

Languages: Java (DSA), JavaScript (ES6+), C, C++, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend & Database: Node.js, Express.js, REST API Development, MongoDB, MySQL
Tools: Git, GitHub, Postman, VS Code
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, DBMS, Operating Systems

Hackathons & Coding Activities

- Active member of college technical clubs and participated in various **hackathons and coding events**.
- Completed multiple coding challenges and mini projects to enhance **problem-solving and development skills**.

Courses & Certifications

- **Java Programming Masterclass** — Udemy (Instructor: Tim Buchalka) (2025).
- **MERN Stack Development** — Scaler (2026)

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- DBMS & Relational Databases
- Database Management Systems
- Software Engineering
- Data Communication & Networks
- Foundations of Artificial Intelligence
- Operating Systems
- Big Data Analytics
